INSTITUTIONAL BEST PRACTICE – I

TITLE OF THE PRACTICE:

Career Oriented Skill Development Training Modules

OBJECTIVES OF THE PRACTICE:

Career Oriented Skill Development Training Modules sets out to equip individuals with the specific knowledge, abilities, and competencies necessary to excel in their chosen field. This training aims to bridge the gap between theoretical knowledge and practical application, fostering a well-rounded skill set that enhances professional performance and opens up opportunities for career advancement. Ultimately, the goal is to empower individuals to navigate the dynamic demands of the job market, stay relevant in their industries, and achieve long-term career success.

THE CONTEXT:

“Skills make dreams happen. Training is the foundation of success; embrace the process, endure the challenges, and enjoy the results. In the journey of training, each drop of sweat is a step closer to success. Training is not just about building strength; it's about resilience, discipline, and the constant pursuit of improvement”.

Industries are dynamic and technological advancements continually reshape the professional landscape. In this context, there is a need for continuous learning and skill enhancement to stay competitive.

Career-oriented skill development training is designed to address these challenges by providing targeted education and hands-on experience. It aims to prepare students for the specific requirements of their chosen careers, ensuring that they not only possess the foundational knowledge but also the practical skills needed to excel in their roles. The ultimate goal is to empower students to adapt to changing job requirements, contribute effectively in their professional roles, and enhance their overall employability and career prospects.

THE PRACTICE:

- We Practiced skill based training courses which cater to the requirements of various professional fields.
- They provide opportunities to students for enhancing their career development & exploratory learning through hands-on practice, classroom sessions, self-study, understanding of the job market, skill development and decision-making.
- Students first year to final year are eligible to take up this training alongside their regular course of study.
- At the end of four years, the students are equipped with soft skill training along with conventional degree in Engineering.

- Internships, projects, practicals, seminars and presentations by the students form an integral part of the syllabi of most of these courses.
- MPNMJ Engineering College looks to develop its students from industrial perspective. For this we have designed training modules to impart technical, logical, analytical, behavioral and managerial skills to every student.
- We also promote students to visit various industries pertaining to their disciplines so that they get the right exposure.
- We are also assessing the students through various online testing methodologies so that the right set of students is channelized towards the right profile.
- The following training programmes are conducted for the students by proper planning prior the academic start.

(i) Soft Skill Training Programme:

All the students are encouraged and empowered to develop their interactive and interpersonal skills. This includes the enhancement of following skills

- Leadership Qualities
- Goal Setting
- Time Management
- Personality Development
- Presentation Skills
- Group Discussion
- Resume Preparation
- Interview Preparation & Team Player, etc.

(ii) Aptitude Skill Trainings:

It includes to increase the following abilities in the students

- Verbal,
- Data Interpretation,
- Logical Reasoning
- Analytical

EVIDENCE OF SUCCESS:

- Skill development enhances the proficiency of a student in their particular area of interest. Skill enhances to build the professional network, better communication, time management and so on.
- The Placement Based Training program has improved the success rate of the students in the final placement interviews to an appreciable extent.

PROBLEMS ENCOUNTERED AND RESOURCES REQUIRED:

- The major problem college faces is the lack of participation from students.
- In a tightly scheduled semester pattern of teaching, the time management has been found to be one of the biggest challenges in giving special space to training.
