RAMP

- The ramp facility provided in the college for disabled students is an essential feature that promotes accessibility and inclusivity on campus.
- It allows students with disabilities to participate in academic and social activities without encountering any physical barriers.
- The ramp facility is designed to meet the needs of students with a range of disabilities, including those who use wheelchairs or walkers.
- The ramp facility is often located in strategic places around the campus, providing access to different areas of the college such as classrooms and libraries.

DISABLED FRIENDLY RESTROOMS

- Providing disabled friendly restrooms is an important step towards creating a more inclusive and accessible environment in college.
- Disabled-friendly restrooms are designed to meet the needs of people with disabilities including those who use wheel chairs or have limited mobility.
- Toilets are built with non-slip flooring and accessible signage is kept to ensure ease of use for people with disabilities.

PEDESTRIAN PATHWAYS

- Pedestrian friendly pathways are designed to prioritize the safety and comfort of people who walk or use non-motorized modes of transportation.
- These pathways typically feature wide and well maintained walk space.
- All the pathways have trees and other amenities to provide shade and rest areas for walkers.
- Pedestrian friendly pathways create a more sustainable and livable community by reducing dependence on motorized transportation and promoting healthy and active life styles.
